

DMMT5401

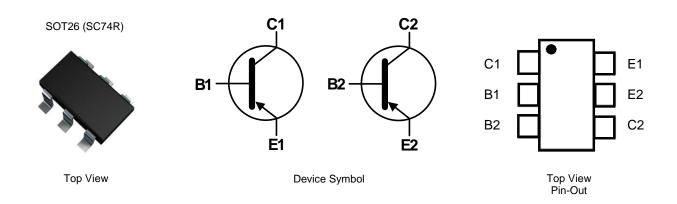

150V DUAL PNP SMALL SIGNAL SURFACE MOUNT TRANSISTOR

Features

- $BV_{CEO} > -150V$
- I_C = -200mA High Collector Current
- Pair of PNP Transistors that are Intrinsically Matched (Note 1)
- 2% Matched Tolerance, hFE, VCE(SAT), VBE(SAT)
- Ideal for Medium Power Amplification and Switching
- Fully Internally Isolated in a Small Surface Mount Package
- **Epitaxial Planar Die Construction**
- Totally Lead-Free & Fully RoHS Compliant (Notes 2 & 3)
- Halogen and Antimony Free. "Green" Device (Note 4)
- Qualified to AEC-Q101 for High Reliability

Mechanical Data

- Case: SOT26 (SC74R)
- Case Material: Molded Plastic. "Green" Molding Compound. UL Flammability Rating 94V-0
- Moisture Sensitivity: Level 1 per J-STD-020
- Terminals: Finish Matte Tin Plated Leads. Solderable per MIL-STD-202. Method 208 @3
- Weight: 0.018 grams (Approximate)

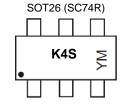

Ordering Information (Note 5)

Part N	Number	Compliance	Marking	Reel Size (inches)	Tape Width (mm)	Quantity Per Reel
DMMT	5401-7-F	AEC-Q101	K4S	7	8	3,000

Notes:

- 1. Intrinsically matched pair as this is built with adjacent die from the same wafer.
 2. No purposely added lead. Fully EU Directive 2002/95/EC (RoHS), 2011/65/EU (RoHS 2) & 2015/863/EU (RoHS 3) compliant.
- 3. See https://www.diodes.com/quality/lead-free/ for more information about Diodes Incorporated's definitions of Halogen- and Antimony-free, "Green" and Lead-free.
- 4. Halogen- and Antimony-free "Green" products are defined as those which contain <900ppm bromine, <900ppm chlorine (<1500ppm total Br + CI) and <1000ppm antimony compounds.
- 5. For packaging details, go to our website at https://www.diodes.com/design/support/packaging/diodes-packaging/.

Marking Information

K4S = Part Marking (See Ordering Information)

Base-Emitter Saturation Voltage	V _{BE(SAT)}	_	_	-1	V	$I_C = -10\text{mA}, I_B = -1\text{mA}$ $I_C = -50\text{mA}, I_B = -5\text{mA}$		
SMALL SIGNAL CHARACTERISTICS	SMALL SIGNAL CHARACTERISTICS							
Current Gain-Bandwidth Product	f⊤	100	—	300	MHz	$V_{CE} = -10V, I_{C} = -10mA, f = 100MHz$		
Output Capacitance	C _{OBO}		—	6	pF	$V_{CB} = -10V$, $f = 1.0MHz$, $I_E = 0mA$		
Small Signal Current Gain	h _{fe}	40		260	_	$V_{CE} = -10V, I_{C} = -1mA, f = 1.0kHz$		
Noise Figure	NF	_	_	8	dB	V_{CE} = -5V, I_C = -200 μ A, R_S = 10 Ω , f = 1.0kHz		

Notes:

- 6. For a device mounted on minimum recommended pad layout with 1oz copper that is on a single-sided 1.6mm FR-4 PCB; the device is measured under still air conditions whilst operating in a steady-state.
- 7. Maximum combined dissipation.
- 8. Short duration pulse test used to minimize self-heating effect.
- 9. The DC Current Gain, h_{FE}, (matched at I_C = -10mA and V_{CE} = -5V) Collector Emitter Saturation Voltage, V_{CE(SAT)}, and Base Emitter Saturation Voltage, V_{BE(SAT)} are matched with typical matched tolerances of 1% and maximum of 2%.

Diodes Incorporated and its subsidiaries reserve the right to make modifications, enhancements, improvements, corrections or other changes without further notice to this document and any product described herein. Diodes Incorporated does not assume any liability arising out of the application or use of this document or any product described herein; neither does Diodes Incorporated convey any license under its patent or trademark rights, nor the rights of others. Any Customer or user of this document or products described herein in such applications shall assume all risks of such use and will agree to hold Diodes Incorporated and all the companies whose products are represented on Diodes Incorporated website, harmless against all damages.

Diodes Incorporated does not warrant or accept any liability whatsoever in respect of any products purchased through unauthorized sales channel. Should Customers purchase or use Diodes Incorporated products for any unintended or unauthorized application, Customers shall indemnify and hold Diodes Incorporated and its representatives harmless against all claims, damages, expenses, and attorney fees arising out of, directly or indirectly, any claim of personal injury or death associated with such unintended or unauthorized application.

Products described herein may be covered by one or more United States, international or foreign patents pending. Product names and markings noted herein may also be covered by one or more United States, international or foreign trademarks.

This document is written in English but may be translated into multiple languages for reference. Only the English version of this document is the final and determinative format released by Diodes Incorporated.

LIFE SUPPORT

Diodes Incorporated products are specifically not authorized for use as critical components in life support devices or systems without the express written approval of the Chief Executive Officer of Diodes Incorporated. As used herein:

- A. Life support devices or systems are devices or systems which:
 - 1. are intended to implant into the body, or
 - 2. support or sustain life and whose failure to perform when properly used in accordance with instructions for use provided in the labeling can be reasonably expected to result in significant injury to the user.
- B. A critical component is any component in a life support device or system whose failure to perform can be reasonably expected to cause the failure of the life support device or to affect its safety or effectiveness.

Customers represent that they have all necessary expertise in the safety and regulatory ramifications of their life support devices or systems, and acknowledge and agree that they are solely responsible for all legal, regulatory and safety-related requirements concerning their products and any use of Diodes Incorporated products in such safety-critical, life support devices or systems, notwithstanding any devices- or systems-related information or support that may be provided by Diodes Incorporated. Further, Customers must fully indemnify Diodes Incorporated and its representatives against any damages arising out of the use of Diodes Incorporated products in such safety-critical, life support devices or systems.
